

School no. 13 will be built near Torretas urbanisations

The primary school no.13 of Torrevieja -now in prefabricated classrooms- will be built on a 12,000-sqm plot next to the CdT building, near Torretas urbanisations, given by the Local Council to the Valencian

Regional Council for Education, as announced by the local Government spokesman, Joaquín Albaladejo. This school will be called "Ciudad de Oviedo", referring to the Asturian city, twin town of Torrevieja.

In loving memory...

Nineteen roses were cast upon the sea in the memory of the people killed by the bombs dropped on Torrevieja by Italian planes of the Fascist army on August 25th 1938. "It is not a political event, but a claim for justice", left-wing party spokesman, José Manuel Martínez Andreu, stated. Martínez Andreu asked the authorities again for a monument at the port in the memory of the victims, little children included, of what he regarded as "a terrorist attack" on civils.
